

Updates

The expansion of the Fitness Center is nearing completion. We expect about one more month of work before fully opening the new area for our members. We are targeting the week of May 9th to do some major rearranging and installing of new and existing fitness equipment. During this time we will try and keep all the equipment available for members, but there may be some days and times where equipment will not be available. We will have a detailed schedule for this transition available in the coming weeks.

Progress on the building has gone quickly during the past month. The roof has been completed. The windows are now in place and the exterior is nearing completion. We expect the interior work to move very quickly and to have the new equipment arriving in early May.

We really appreciate your patience, especially with the work that has gone on inside. With the limited space and one unusable exit in the Fitness Center, we have to continue to pay close attention to the number of members using the room. We want to be sure that our members have a safe environment to work out in. With this being said, we would encourage members to use the alternate equipment in the hallways. We would also encourage anyone that has the flexibility in their schedule to avoid the busy evening hours between 6pm and 9pm Monday through Thursday.

What to Expect

Next Week:

- Completion of the building exterior
- Interior work

Near Future:

- HVAC work for new area
- Flooring and fixtures

Impacts to Members

We expect no major changes to occur until the second week of May. At that time, we may have some days where there is only limited availability to some of the fitness equipment.

Tell Us What You Think

While we anticipate some impacts during construction, the staff at the CRC is committed to mitigating these impacts as much as possible. Let us know how we are doing, by filling out a comment card, talking to our staff, or emailing us at chris.ghione@mhcrc.com. We really feel the final project will be "worth the weight".
